XtraNet Transforming Business

Synergy DPDP

Compliance Platform

From consent to compliance — seamlessly.

A unified, agent-powered platform that operationalises India's Digital Personal Data Protection Act for enterprises and government — from consent governance and data principal rights to breach response and board-ready reporting.

PLATFORM CAPABILITIES

Five Integrated Compliance Modules

Every DPDP obligation mapped to a purpose-built module — traceable from statute to screen, and inspection-ready by design.

Consent Management

Itemised, multilingual notices backed by a tamper-evident consent ledger. Collect, review, renew, and withdraw consent in real time across every channel.

Data Principal Rights

Self-service DSAR portal covering access, correction, erasure, nomination, and grievance redressal — with SLA tracking on every request.

Breach Handling

Guided incident workflows with dual regulator timers for Data Protection Board and CERT-In notification, plus automated evidence capture.

Data Lifecycle

Purpose-bound retention schedules, automated deletion with signed certificates, and end-to-end visibility of personal data flows.

Analytics & Dashboards

Apache Superset dashboards for consent health, DSAR ageing, and breach posture — with one-click, board-ready compliance reports.

Unified Domain Model

Seven governed entities, from DataPrincipal to DeletionCertificate, keep every consent, request, and incident traceable and audit-ready.

SYNERGY DPDP COMPLIANCE PLATFORM

XtraNet Transforming Business

AGENTIC AUTOMATION

Four Purpose-Built Agents. One Event Bus.

Compliance work is executed by specialised agents, orchestrated in real time over an event-driven bus.

Consent Agent
Issues notices and propagates consent state to every system.

DSAR Agent
Routes, tracks, and fulfils rights requests within SLA.

Breach Agent
Runs regulator timers, escalations, and filings.

Deletion Agent
Executes erasure and issues deletion certificates.

EVENT-DRIVEN ORCHESTRATION BUS

INDIA-FIRST COMPLIANCE

Engineered for the DPDP Act 2023 & DPDP Rules 2025

The obligations that generic GRC tools miss are built into Synergy DPDP from day one.

Children's Data & Parental Consent
Verifiable parental consent workflows, age-gating, and automatic blocking of tracking and targeted advertising for minors (S.9–10).

Multilingual Itemised Notices
Notices in English and all 22 Eighth-Schedule languages, with locale detection and version-controlled templates (S.5–6).

Grievance & Nominee Rights
Built-in grievance redressal workflows and nomination management for data principals, with complete audit trails (S.13–14).

Consent Manager Framework Ready
Interoperable with the Consent Manager ecosystem and Data Protection Board processes as they operationalise through 2026.

TECHNOLOGY FOUNDATION

Enterprise-Grade, API-First Architecture

- .NET Core Services
- React Frontend
- Python Automation
- Apache Superset
- OAuth 2.0 + JWT
- REST APIs & Webhooks
- End-to-End Encryption
- Immutable Audit Logs
