LOW CODE
DIGITAL TRANSFORMATION

Introduction

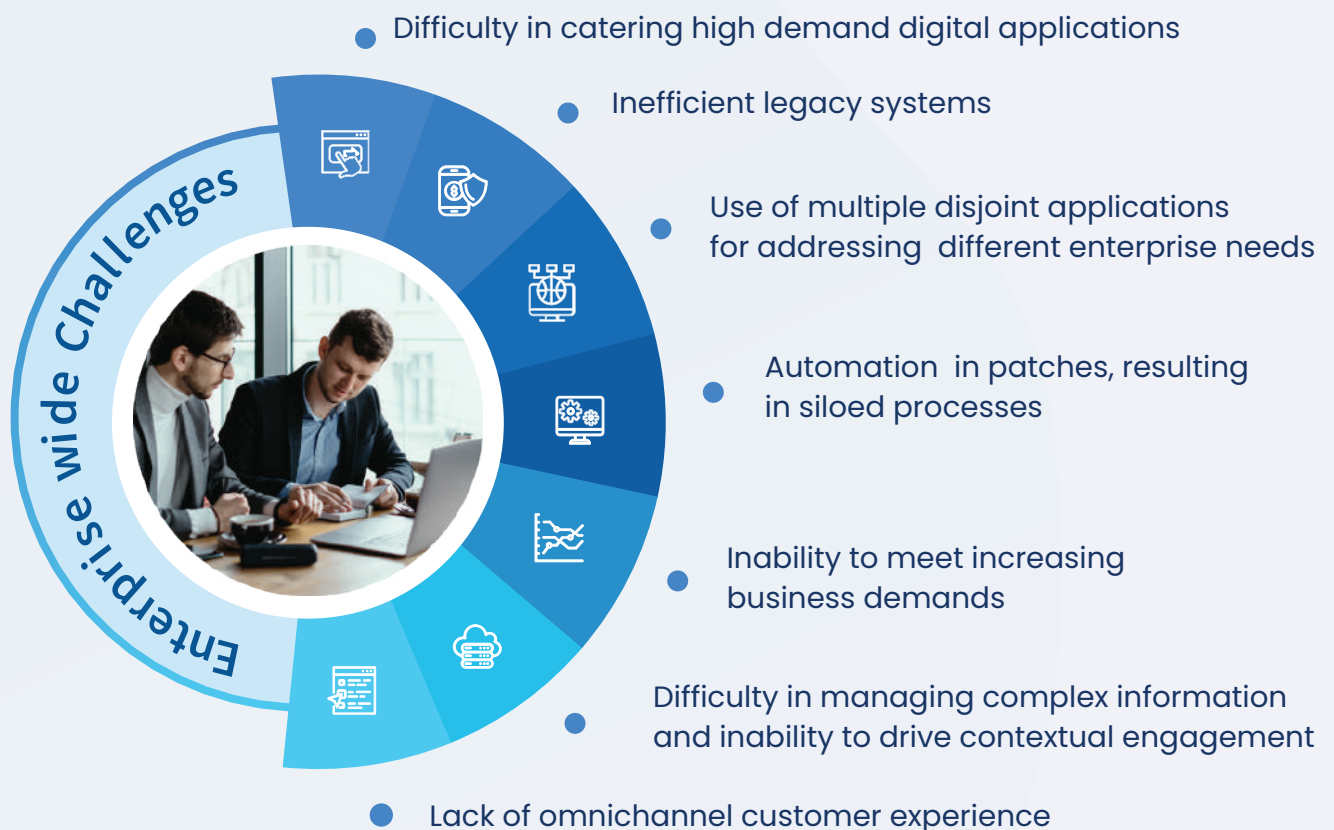

Organizations like yours are always looking for new ways to reduce the process turnaround time, streamline business processes, provide contextual information, and provide an Omni-channel experience to delight customers.

To achieve these objectives, you need a platform that allows you to run your operations with speed, flexibility, and agility, as well as effectively execute new business strategies.

A low code process automation platform can assist you in rapidly developing applications and automating end-to-end customer journeys without losing context across all digital touchpoints.

Synergy Low code digital transformation Platform is consists of below categories –

- 1 **Business process management** – to structure the various business processes.
- 2 **Content management & portal** – enables users to store, organize and publish content easily.
- 3 **Analytics and dashboard** – to give an overview of the reports and metrics.
- 4 **API connector** – to pull data from any API to Google sheets.
- 5 **Mobile app platform** – to create mobile applications for end users

How Synergy low code platform help organizations

Synergy is an agile and advanced Digital transformation platform to improve process quality, optimize operational costs by automating all manual/disintegrated work and improve management oversight to drive employee and customer engagement in ever changing dynamic world.

Synergy helps in capturing the tacit process knowledge and increasing work accountability thereby reducing risk of customer service disruption and dependency on critical resources. Hence, business resilience and continuity is substantially increased to deal with challenges such as pandemic or high turnover of people.

Synergy seamlessly integrates with all existing systems and provide cohesive business intelligence thus simplifying adoption of technology for business users that helps in realizing great return on investment in technology solutions.

Synergy Low Code Platform for all devices

Why should you choose **SYNERGY** Low Code Digital Transformation Platform?

Synergy Platform is certified with ISO 15489 and ISO 16175

Benefits of Synergy Low Code Platform

- **Rapid Application Creation**

Allow for the rapid design and development of enterprise-grade cloud applications for web and mobile, aided by a well-abstracted and object-oriented low code application development model.

- **Automated Intelligence**

With dynamic business rules, RPA, AI, and ML-based document intelligence, you can automate complex, content-centric business processes from start to finish.

- **Contextual Knowledge**

Capture, manage, and consume content generated by business processes, as well as derive context from information.

- **Multi-channel Engagement**

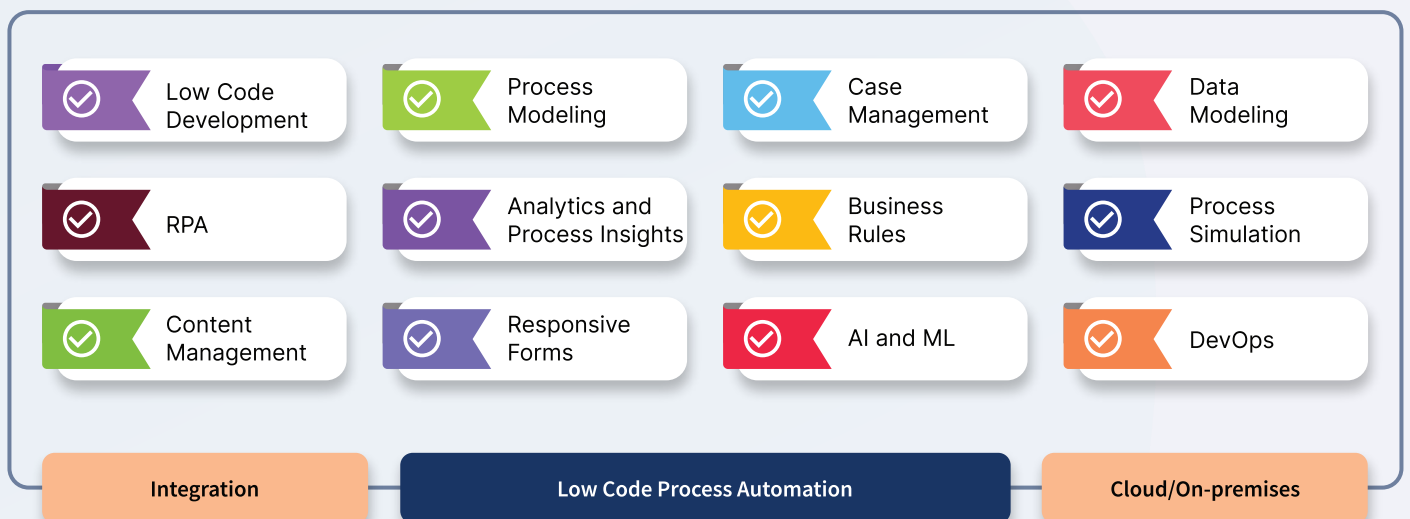

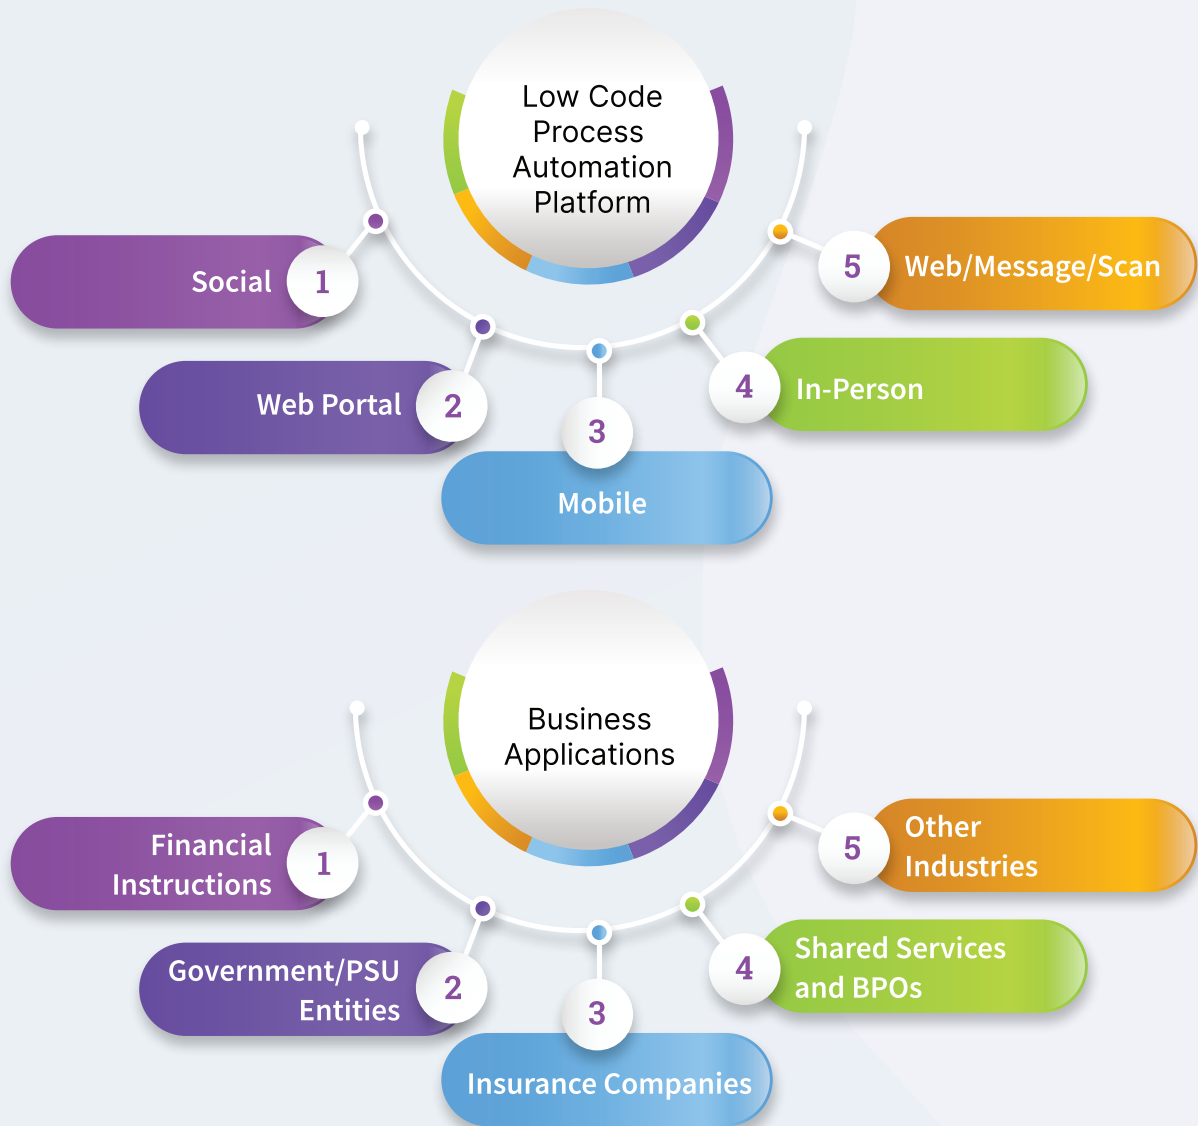

Engage with customers via their preferred channel of engagement and deliver personalized, contextual, and content-rich communications.

Mobile App

Bring your idea to life and get set up for success! Our mobile app is a new opportunity to make difference.
