Inventory Management
System

Secure. Scalable. Autonomous.

The Future of Workplace Automation – Innovation-Led Narrative

Empower your workforce with 24/7 self-service access to IT assets, HR documents, and critical supplies without human intervention. XtraNet's Smart Locker solutions integrate seamlessly with enterprise systems (ServiceNow, HRMS, AD, ERP) to automate issuance, return, and lifecycle management.

Benefits

- Reduced Operational Costs
- Enhanced Employee Experience
- 24/7 Availability & Business Continuity
- Security & Compliance
- Modular & Scalable Architecture

24x7 Autonomous Asset Access

Access lockers anytime ideal for hybrid work, night shifts, and distributed teams

Custom Workflow Configuration

Tailor flows for onboarding kits, tools, policy docs, or returns by role, SLA, or location.

Multi-Modal Authentication

RFID, OTP, QR, biometric, or passcode-based access aligned to your security policy.

Automated Issuance & Return

Initiate pick-up, return, or exchange via kiosk, mobile app, or ITSM ticket fully traceable

Enterprise System Integration

Integrates with AD, ServiceNow, SAP, Jira, Workday enabling end-to-end automation.

Smart Camera Integration

Auto-captures photos/video for each transaction to ensure accountability.

Secure Locker Infrastructure

Tamper-proof, fire-rated, RFID-enabled lockers with remote locking and intrusion alerts.

AI-Driven Automation Engine

Predicts demand, allocates lockers dynamically, and flags anomalies in real time.

Real-Time Alerts & Notifications

Get instant updates via WhatsApp, SMS, email, or app on locker status, delays, and more.

Cryptographically Verified Document Issuance and Exchange

It aims to reduce - Document fraud, manual inter-branch verification calls, and untracked photocopies circulating across institutions create liability and slow down origination.

Key Capability

Every document gets a cryptographic token + QR code embedded at issuance

Scanning the QR instantly confirms: original or tampered, revoked or valid, correct recipient or not

Complete audit trail of every action on every document

Real-time revocation when document status changes

Three Pillars of Document Security

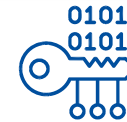

Enterprise-grade protection at every level

Copy Protection

One-time token enforcement
Device fingerprint tracking
IP/location anomaly detection
Time-window expiration

Copies Rendered Useless

Encryption & Signature

AES-256 document encryption
RS256 digital signatures
SHA-256 hash verification
HSM-protected keys

Tamper-Proof Documents

Serialization & Audit

Unique token per recipient
Individual revocation control
Complete activity logging
7-year retention compliance

Full Traceability

Solution is tech agnostic, capable of integrating to any existing CBS or DMS via standard API - No Replacement Required

FraudShield eFRM + Intelligent Patrolling Engine

Most fraud begins outside the institution and lands inside it. The Risk Intelligence layer aims to close the gap by continuously surveillance on the external threat landscape while scoring every transaction at the point of initiation, giving analysts the clarity to act fast and the intelligence to act right.

FraudShield eFRM *inside the institution*

- Scores every transaction and application at the point of initiation - before it settles
- Builds a behavioural baseline per customer using the institution's own data
- Rule engine is fully configurable: velocity, amount, time, channel, beneficiary
- ML model trained on the institution's own historical data - not generic industry thresholds
- Prioritises alerts P1 to P4 - analysts focus only on what needs human review

Intelligent Patrolling Engine *outside the institution*

- Monitors phishing domains, fake QR portals, and cloned banking interfaces continuously
- Detects lookalike SSL certificates at the point of issuance via certificate transparency logs
- Confirmed external threats automatically elevate risk scores inside FraudShield in real time
- Capable for monitoring the bank's own application servers for early indicators of attack based on the configuration

Physical-Digital Banking Infrastructure

Smart Machines is Synergy's physical-digital banking product capable of delivering full banking service in formats and locations that do not require a staffed branch. The product suite comprises smart kiosks enabling self-service account management, document submission, KYC completion, and routine transactions. AI assistants guide customers through processes that would otherwise require teller intervention, reducing counter dependency and freeing branch staff for advisory and relationship functions.

Core capability

Smart kiosks - account services, document collection, KYC, routine transactions

AI-assisted customer guidance through self-service workflows

Designed for branch transformation and new service touchpoints

Integrates with core banking and Synergy platform in real time

India's Trusted Partner in Digital Trust & Security

XtraTrust DigiSign Pvt. Ltd.

XtraTrust, a licensed Certifying Authority (CA) and eSign Service Provider (ESP), is your one-stop destination for all PKI-based solutions. Backed by XtraNet Technologies and a legacy since 2002, we serve government, enterprises, and institutions with next-gen digital security solutions across India.

Digital Innovation Ecosystem

- BPM & Workflow Automation
- Business Intelligence & Analytics
- Mobile & Web Application Development
- ERP Implementation & IT System Integration
- BPO & Smart City Enablement

What We Offer

- Digital Signature Certificates (DSC)
- eSign Services
- Time Stamping Services
- Cryptographic USB Tokens
- PKI Software Enablement for e-Governance
- Registration Authority (RA) Application
- Authentication & PKI Tech Support Services

Why XtraTrust?

- Fastest DSC Issuance
- Only CA & ESP in Central India
- Multilingual Platform (English, Hindi, more coming)
- Mobile App for Android & iOS
- 100+ Years Combined Team Expertise
- Xtसमाधान – Toll-Free Tech Support

Industries We Empower

- Process-Specific Ready Reckoners for Agents

Specialized Capabilities

- Multilingual Support (PAN India Dialects)
- State-of-the-art Dialer Integration
- 100% Call Recording & Dedicated Quality Audit Team
- Custom Training: Product, Language, Process-specific
- 24x7 Over-the-Phone & On-site Interpretation Services

**AsalJobs
provides
targeted
recruitment
solutions for:**

Aviation

Healthcare

Hospitality

Manufacturing

AsalJobs is a prominent International Manpower Solution and Outsourcing Service provider, dedicated in facilitating seamless staffing solutions for businesses worldwide. With a deep understanding of the global market, AsalJobs specializes in connecting organizations with top-tier talent across various industries and regions.

Our comprehensive services encompass every aspect of the recruitment process, from sourcing candidates to managing visas and ensuring compliance with international regulations. By leveraging our extensive network and local

expertise, AsalJobs offers tailored solutions to meet the specific needs of each client, whether they are seeking entry-level positions or executive roles.

Businesses partnering with AsalJobs gain access to a diverse talent pool, cost-effective staffing solutions, and expert guidance on navigating the complexities of global hiring.

Struggling to find the perfect candidate in a global market? AsalJobs, Asia's trusted recruitment partner, helps you overcome these obstacles:

Language Barriers

Multilingual staff and translation services ensure smooth communication throughout the recruitment process.

Cultural Differences

Cultural sensitivity training empowers you to attract and retain diverse talent.

Legal & Regulatory Compliance

AsalJobs ensures all applications comply with visa and immigration regulations, saving you time and resources.

**Unleash Your
Potential with
XtraNet and AsalJobs**

**Don't just survive in
today's competitive
landscape, thrive!**

**Partner with XtraNet
and AsalJobs to
unlock your true
potential and achieve
remarkable success.**

Key Projects – Software Application

We helped MP Power DISCOM in full usage of Oracle ERP modules. Implemented e-Sign Services for eMB Applications in MP Power Discoms.

Implementing IFS ERP along with Synergy – LCNC Platform for KPTCL Power transmission

MP Police – Synergy platform for Police to achieve new levels in Business Intelligence, Social Media Analytics and Predictive Policing

UP CCTNS – Synergy Platform for Mobile app with GIS Integration

NABARD – Finacle upgrade, Allied applications and Data Centre for corporate Banks.

PNB – Specialized IT Manpower for Data Centre

HDFC – Specialized IT Manpower for Application Development and Support

IREPS – Indian Railways E-Procurement System

SLAM – System for Locomotive Asset Management

GOAL – Generation of Optimized Automated Loco Link

PAM – Pan India rollout for Parcel Management System

CMS Upgrade – Crew Management System Hardware Refresh and Migration & DB2 Modification

GIL – State wide E-Sign and E-Seal services. GIL -Gujarat Epidemic Response Management Information System. GIL DSS - MIS, Dashboard and Complaint Module. GIL – IT Manpower services for Application

RISL – Development of Raj-eVault 2.0

RISL – Development and FMS of Web portals

As Digital Transformation partner of choice, we delivered Synergy - BPM and Workflow based DMS, HRMS and Assessment Module; that resulted in improved project and vendor management, better employee management and smooth assessment

We helped our customers with specialized IT Manpower sourcing for their prestigious projects

SEBI – Saarthi Mobile App for Investor Awareness

Srinagar Smart City – Synergy Platform for Citizen Portal and Mobile App along with integration with back office modules and GIS

Jammu Smart City – Synergy Platform for Citizen Portal, Mobile App, back office modules and integration with GIS

Synergy platform (AI/ML enabled Low Code No Code Platform) - Visa Management System comprising slot booking for appointment, liveliness detection for face recognition, biometric capture & processing, video capture & processing, document capture & Processing for end to end Visa management workflow for multiple countries and the solution is hosted on AWS cloud platform.
